

## CONFIGURING BANK ACCOUNT DATA

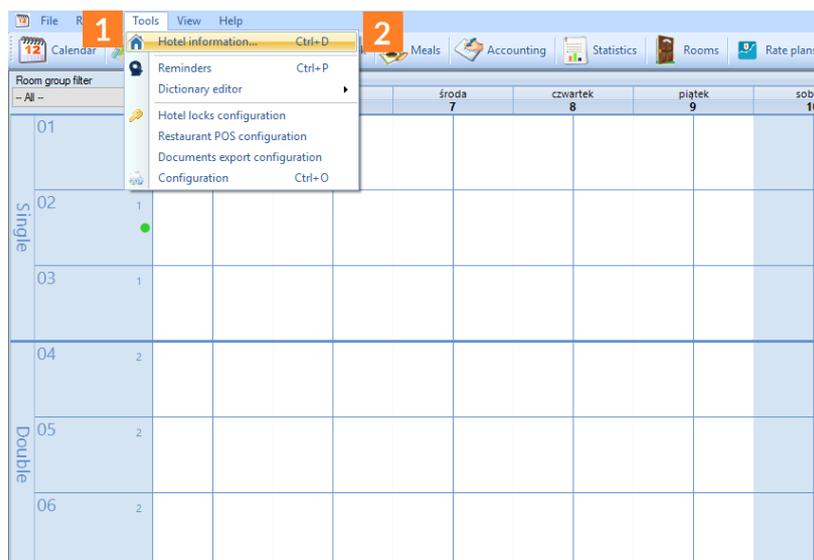

### You will learn:

1. How to display your bank account data on fiscal documents

### 1. How to implement the bank account data

#### Step by step configuration:

1. Click Tools
2. Select "Hotel information"

3. Type your bank name and account number

#### **Pay attention:**

Both bank name and account number must be filled in – otherwise your bank account number will not appear on documents.

4. Save changes. Your bank account data will now be displayed on the accounting documents.
